EZIKEUGO OSITA EPHRAIM

5 Udora Close, Ejigbo Lagos State

PHONE: +2347017113108.   **E-mail: osita.ezikeugo22@gmail.com**

CAREER OBJECTIVE:

Motivated and self-taught web developer specializing in **React.js** and **Node.js**. I am eager to gain hands-on experience in full-stack web development, contributing to innovative projects and building dynamic, user-friendly web applications. With strong skills in **React.js**, **Express.js**, and **API development**, I am looking for an internship that will allow me to expand my technical abilities and contribute effectively to a growing team.

PERSONAL DOSSIER: Date of Birth: 22nd June, 1991,

Nationality: Nigerian

TECHNICAL SKILLS

Frontend Development:

- React.js, HTML, CSS, JavaScript (ES6+)

Backend Development

- Node.js, Express.js, RESTful APIs

Database Management

- MongoDB

Version Control & Tools:

- Git, GitHub, NPM

CAREER SCAN:

Organization: Market22

Tenure: October 2024 – February 2025

KEY PROJECTS:

Sales Tracker App (MERN)

Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT, REST API, Bootstrap

- Designed and developed a full-stack Sales Tracker web application to help small businesses monitor, manage, and analyze their sales data in real time.
- Built dynamic and responsive front-end UI using React.js, improving user experience and workflow efficiency.
- Created secure RESTful APIs with Express.js and Node.js to handle CRUD operations for sales records, products, staffs, branches and analytics.
- Implemented user authentication and role-based access using JWT, ensuring secure login and differentiated user permissions (e.g., Admin vs. Sales Rep).
- Integrated data visualization (e.g., charts and graphs) for sales analytics using chart js libraries to help users identify trends and insights.
- Managed backend data using MongoDB with Mongoose for schema modeling, including aggregation pipelines for analytics features.
- Ensured mobile responsiveness and a clean UI using Bootstrap and custom CSS, enhancing usability across devices.

Book Store App (MERN)

Tech Stack: MongoDB, Express.js, React.js, Node.js, Redux, Firebase, JWT, REST API

- Developed a fully functional e-commerce Bookstore application enabling users to browse, search, and purchase books online.
- Engineered a responsive and user-friendly interface using React.js and Redux, including filtering, pagination, and book detail views.
- Built a robust back-end with Express.js and Node.js to support product management, cart functionality, order processing, and user profiles.
- Implemented Firebase Authentication for secure user sign-up/sign-in (with email/password and Google login), enabling real-time auth state management and protected routes.
- Designed MongoDB schemas with Mongoose to handle books, users, and orders, ensuring data integrity and scalability.
- Implemented admin dashboard with full CRUD control over products, users, and orders, streamlining management tasks.

Social Media Dashboard

- Developed a **Social Media Dashboard** to track user engagement metrics across various platforms (e.g., Facebook, Twitter, Instagram).
- Built dynamic visualizations using React components, including line charts, bar graphs, and pie charts, to present user data.
- Applied **CSS** to create a visually appealing and responsive layout for optimal mobile and desktop views.

AirPaddy

- Developed AirPaddy, a platform to help users locate the right terminals for their flights within Nigeria.

- Built the frontend using javaScript, allowing users to search for flights and view relevant terminal information for major Nigerian airports.
- Designed a simple, intuitive UI with **CSS** to provide users with a seamless experience across both desktop and mobile devices.

HIGHEST ACADEMIC QUALIFICATION:

Nnamdi Azikiwe University, Awka   BSc Geography and Meteorology 2013 - 2017

ADDITIONAL INFORMATION

- **Learning Goals**: Actively improving my Node.js and Express.js skills to expand into full-stack web development, including RESTful API development and server-side logic.
- **Communication**: Excellent communication and collaboration skills with a strong desire to work in a team environment.
- **Problem-Solving**: Passionate about tackling complex development challenges and learning new technologies.
